## SUMMARY

As an entry-level frontend developer, I am enthusiastic and motivated to contribute my skills to dynamic and collaborative projects. With a foundation in HTML, CSS, and React JS, I have successfully completed relevant coursework and personal projects to build practical experience. My passion for creating visually appealing and user-friendly interfaces drives my commitment to continuous learning in the rapidly evolving field of web development.

## EXPERIENCE

### Web Developer

During my learning period at Programming Hero, I actively contributed to front-end development projects, gaining hands-on experience in HTML, CSS, and JavaScript. Collaborating with senior developers, I participated in the design and implementation of user interfaces, ensuring responsiveness and cross-browser compatibility.

- Assisted in the creation of visually appealing and user-friendly web pages, incorporating design principles and responsive techniques.
- Collaborated with the development team to troubleshoot and resolve front-end issues, enhancing problem-solving skills and attention to detail.
- Actively participated in team meetings, providing insights and learning from experienced developers to improve coding practices.
- Engaged in code reviews, receiving constructive feedback, and refining coding skills to meet industry standards.
- Conducted research on emerging front-end technologies and trends, contributing to discussions on potential project enhancements.

This learning phase provided me with a solid foundation in frontend development, allowing me to apply theoretical knowledge to real-world projects and develop a keen understanding of industry best practices.

## SKILLS

HTML	Advanced	React JS	Advanced
CSS	Advanced	Responsive Website	Intermediate
JavaScript	Intermediate	Problem Solving	Intermediate

## PROJECTS

### Brand-Shop-Management

Engineered a brand shop website using React, Tailwind CSS, MongoDB, and Express for an improved online experience. Elevated brand shop growth with innovative features, enhancing user satisfaction and visibility.

Technology used: ReactJS | ExpressJS | MongoDB | Firebase, Mongo DB

### Event-Management

Implemented an event-management website using React.js to deliver a dynamic and interactive user interface, enhancing user experience for event planning and execution. Utilized Tailwind CSS for efficient and responsive styling, ensuring a visually appealing and modern design.

Technology used: ReactJS | Firebase | Tailwind | CSS

### Dragon-News

Designed and developed a news portal website featuring a responsive and user-friendly interface using React.js for dynamic content rendering. Incorporated Tailwind CSS for streamlined styling, ensuring an engaging and visually appealing presentation of news articles across various devices.

Technology used: ReactJS | Firebase | Tailwind | CSS

# EDUCATION

---

2017 –2023	Bachelor of Science Chemistry Cumilaa Victoria Govt. College
2015–2016	Higher Secondary School Certificate Ispahani Public School and College GPA- 5.00
2009–2014	Secondary School Certificate  Meah Bazar L.N High School  GPA-5.00

# CERTIFICATION

---

MERN Stack Web Development   Programming Hero.  
Tools (VS Code, Git & Github), HTML, CSS, JavaScript & Bootstrap (Projects), Front-end Development Using  
API, React JS, Node JS, Express JS, MongoDB
